

## **As seen in The Real Estate Book Vol.16 No. 10**

*November 2, 2007 Page 38*

T. C. Lewis & Co. Properties is the standard of comparison in full service real estate, development, excavation, construction, and planning. We offer comprehensive expertise to potential buyers and sellers in a fickle marketplace. At our core, we're homeowners, we're problem solvers, and we're people. We're your strategic partner for all real estate transactions-more simply and more effectively.

We offer a boutique-office atmosphere with a staff well-versed in all aspects of the real estate industry. Furthermore, we are equipped with an immense inventory of equipment to offer medium to large-scale excavation by licensed, bonded general contractors, as well as full-service construction services on virtually any scale. For investors, we offer turn-key real estate investment projects. When looking for investment opportunities, we have the ability to: Find the location, secure it, lead the way through a step-by-step city/county/state approval process, engineer it, excavate it, install utilities, build homes, market and sell it-all in one package.

We also provide an in-house lending consultant, appraiser, and home inspector for anyone seeking such services.
